

"We scientists don't know how to do that"

"I used to think the top environmental problems were biodiversity loss, ecosystem collapse and climate change.

I thought that with 30 years of good science we could address those problems.

But I was wrong.
The top environmental problems are selfishness, greed and apathy...

...and to deal with those we need a spiritual and cultural transformation

- and we scientists don't know how to do that."

Gus Speth

Bohr Model of H_2O

Evaporation

Bubbles cannot form since the vapor pressure is less than atmospheric pressure.

Boiling

Bubbles can form and rise since the vapor pressure can overcome atmospheric pressure.
